WOMEN STARS SET FOR CITY TOURNEY

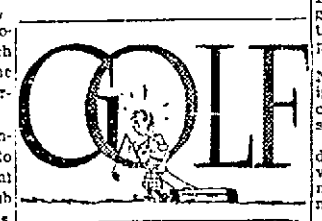
BEE-REPUBLICAN'S ANNUAL TOURNAMENT BEGINS TO-MORROW

Players Practice To-day At Sunnyside; Late Entries Swell Field Of Competitors

By ED W. ORMAN

Practice rounds intended to put them on edge for the qualifying round of The Bee-Republican's eight annual city golf tournament to-morrow at Sunnyside were indulged in to-day by the women entrants.

From early morning until late this afternoon, the field of nearly forty entrants played around the Sunnyside links in their final polishing-up maneuvers before they go into competition to-morrow at 8:55 o'clock in the qualifying test of the big links event.



Indications were very good to-day that the field would reach close to forty by the time for the first twosomes to tee off to-morrow morning.

The committee in charge of entries relented to-day and decided to accept last-minute entries. Several more Sunnyside Country Club women were reported by Mrs. James Price, sports committee chairman of that club, as having entered. Some additional entries also were expected from Fort Washington, Mrs. Lloyd Howard, sports committee chairman, said as result of the new ruling of leaving the entry rolls open until teeing off time.

Tee Off At 8:55

To-morrow's qualifying round will be played over an eighteen-hole course, the first twosomes leaving No. 1 and No. 10 tees at 8:55 o'clock and others following on both tees at five-minute intervals according to the schedule announced in Sunday's issue of The Bee-Republican and repeated to-day.

The entrants who come in after the deadline Friday night must follow at the end of the already scheduled pairings. Grant Halstead, Sunnyside professional, will have charge of the play during the week.

Two of the seven trophies offered by The Bee-Republican will be fought for over the links to-morrow.

They are the trophy for low gross and low net scores in the qualifying test.

Other Bee-Republican cups at stake this week are the championship trophy, the runnerup trophy, the winner and runnerup cups in the first flight defeated eight. A replica also will be presented to Mrs. Mildred Emberling, 1932 and 1931 champion, who is out of the running this year along with Miss Mary Louise Powers, three times winner of the championship. There are many other prizes to be awarded in all flights.

Several new tournament competitors are listed in the field this year and they may be among the surprise packages of the competition. While the tournament has attracted many of the old favorites, they may have their hands full with the newcomers before the final thirty-six-hole final match is completed Saturday afternoon.

Match Play Wednesday

First flight matches, beginning Wednesday, will be played at scratch, while those in all other flights will be played at handicap.

There will be a driving, approaching and putting contest Wednesday afternoon.

Harris and Niswander have installed new field equipment that will aid materially in the work of preparing the Bulldogs for next Fall's campaign in the Far Western Conference.

Negotiations are still under way for the regular game to be played as the climax to the practice season, Sacramento, Modesto and Bakersfield junior colleges are being contacted as possible opponents.

Corbett Ready For McLarnin, Answers White

(By McClatchy Newspapers Wire)

SAN FRANCISCO, March 27.—"I don't know what they're waiting for. We're all set."

That was the answer to-day of Larry White, business manager of Young Corbett III, to questions regarding the proposed Corbett-Jimmy McLarnin welterweight title fight.

White was back in town after a visit to Sacramento and he found several offers for the new champion's services from various parts of the country. One of these was from Nate Lewis, the Chicago promoter, who indicated he would start to work lining up an opponent for the Fresnan as soon as the McLarnin dickerings are cleared up. Lewis is said to have lined up Vince Dundee, eastern middleweight, for a proposed fight with the Fresnan.

"In Los Angeles they give out the word that the promoters and McLarnin are waiting on us," White said.

"That's haywire. We've submitted our terms and they've been accepted. The next move is up to Pop Foster, McLarnin's manager.

"He can take it or leave it. Corbett can make money without him. He's a champion who is in demand."

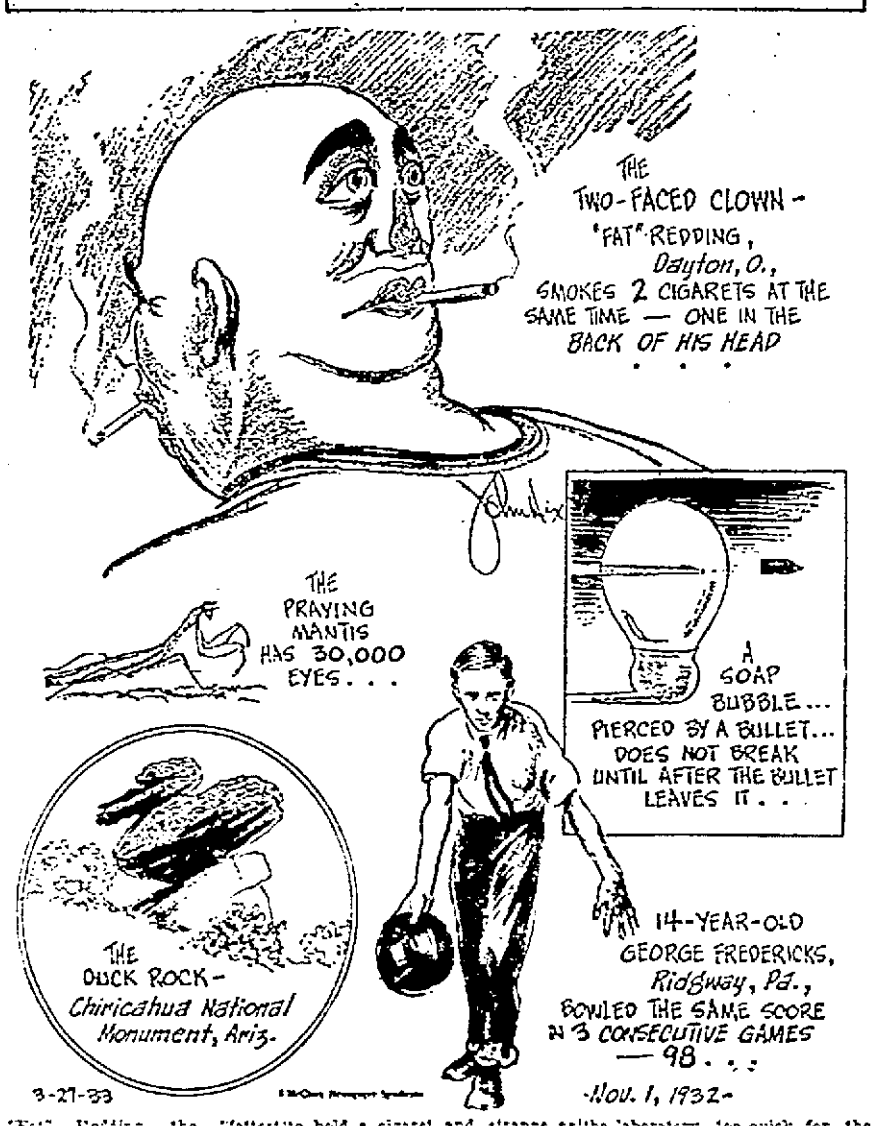
STRANGE AS IT SEEMS *By John Hix*



"Fat" Redding, the "fattest clown on earth" who tips the scales at 525 pounds, is so fat that he has a double chin on the back of his neck. After years of practice, Redding became able to exercise muscular control over the deep layers of fat on the back of his head. Using grease paint he "makes up" a face on the back of his head, the mouth of which is a deep crease between two rolls of fat.

In this "mouth" Redding is able to hold a cigaret and, strange as it seems, he can even puff on it, making the cigaret glow and blow out smoke.

Just what happens when a rifle bullet strikes a soap bubble man would probably never have been able to determine without the use of an eye faster than that of the human. To make up for this lack of human ability, high speed motion picture cameras have been developed to record happenings in the laboratory too quick for the eye to catch. In Japan photographs have been made of the soap bubble experiment, showing that when a bullet pierces the wall of a soap bubble it leaves the side intact, entering without shattering the bubble. The bullet continues through the bubble, passing out on the other side before it actually breaks up.

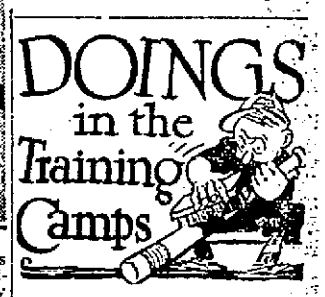
STR-R-RIKE!!



These words echoed in the ears of Fresno Tech batsmen approximately fifty-four times recently as Fred Makel, Edison Tech hurler, whiffed eighteen batters in nine innings, to earn a 5-to-2 victory over the Wolves. It remains to be seen if he can pass the bats of the Fresno High School and Roosevelt batsmen. He is about the lone hope on a non-hitting club. If he passes the Warriors, he will then face the Alleruzo and Allison company of Roosevelt, which isn't a pleasant future for him, but he's an ambitious young Tiger—Staff Photo.

EDISON PLAYS ALL-STAR NINE

Edison Tech went into practice for its league game with Fresno High School Friday by playing the Vernon Bandy All-Stars at Frank H. Ball Playground this afternoon.

St. Columba will meet Central Union on the St. Columba diamond to-morrow afternoon. Fresno Tech, Roosevelt and Fresno High School are all seeking games for to-morrow. Edison wants another practice tilt Wednesday.

Football And Interclass Track On Prep Schedule

Two interclass track meets on the high school program this week will relieve any monotony for those who do not care for baseball.

The annual Spring grid feature of Fresno, the football contest between Fresno High School and Hanford on the Fresno High School gridiron will be played April 5th instead ow Friday as previously planned.

Andy Anderson's Hanford eleven, although lacking the facilities of the Fresno High team, always manages to furnish good competition for the Warriors. The latter have been practicing for the past three weeks, Coach Julius Trombetta handling both the football and track practices at the same time. Some classy material will be put on display by Trombetta although he has not decided upon any definite lineup yet.

Interclass track will come into its own this week, with both Edison Tech and Roosevelt holding theirs Thursday and Friday. The interclass is one of the biggest events at Roosevelt. The Rough Riders look as strong on the track and field as they do on the diamond and should make things hum under Coach Dave Morehouse this year.

Edison will not be expecting anything startling from the results of this meet, but the results of it may determine whether or not Edison will have a Spring football practice. If so, it will start the week after the interclass meet.

Coach Jim Russell has another meet on his mind these days, the annual Fresno City junior high school meet, sponsored by Edison Tech, which will be held April 27th. Russell has worked out a new system of classification of athletes, putting them into five classes but with more even division of weights, ages, school classes, etcetera.
